Fazeel Malik

Software Engineer

Creative web developer with a passion for building dynamic, user-centric web applications using modern technologies.

✉ fazeelmalik444@gmail.com   📱 03161404797   📍 Lahore, Pakistan

EDUCATION

F.Sc Pre-Engineering
Unique Group Of Institutions

09/2018 - 06/2020   *Lahore*

Bachelor of Science in Software Engineering
University of Lahore

09/2020 - 06/2024   *Lahore*

WORK EXPERIENCE

Web Developer (Internee)
Smart Moves Lab

01/2023 - 03/2023   *Lahore*

Smart Moves Lab is a dynamic start up, offering comprehensive development solutions for emerging businesses.

Achievements/Tasks

- Gained hands-on experience with web technologies including HTML, CSS, Bootstrap, Tailwind, JavaScript, Angular, and GitHub.
- Contributed to main projects by handling UI-related tasks, ensuring user-friendly and visually appealing interfaces.
- Collaborated with the development team, learning best practices and improving coding skills in a fast-paced startup environment.

Frontend Developer
Smart Moves Lab

09/2023 - 07/2024   *Lahore*

Smart Moves Lab is a dynamic start up, offering comprehensive development solutions for emerging businesses.

Achievements/Tasks

- Led the development of an entire module using Angular, incorporating both UI design and functionality to deliver a seamless user experience.
- Managed and completed all UI tasks for the project, ensuring consistency and responsiveness across devices.
- Collaborated with the development team to integrate and optimize features, contributing to the overall success of the project.

SKILLS

HTML   CSS   Javascript   Tailwind

Bootstrap   Angular   Wordpress   Django

Python   NodeJs   SEO & Marketing   Shopify

UI/UX   Content Writing   Logo Designing

Figma   Adobe XD   Illustrator

PERSONAL PROJECTS

Web Development (WordPress) (06/2023 - 09/2024)
- **Lights Bazaar:** An e-commerce website for selling neon signs. 05/23 - 05/24.
- **Opexa UK:** A wholesale website tailored to UK-based customers. 07/23 - 07/24 (For Client).
- **AmazonSpace UK:** A service website offering FBA services for sellers. (For Client).
- **Safecares UK:** A website providing home care services. 08/24 - 10/24 (For Client).

Shopify Store (01/2025 - Present)

E-commerce Website (Angular & Node.js) (12/2024 - Present)
- Developed multiple e-commerce websites using Angular for the frontend and Node.js for the backend, running locally on a PC with a complete admin panel but without a payment gateway.

Django & Python Projects (07/2024 - Present)
- **Brain Tumor Classification Detection:** Developed using a fine-tuned pre-trained VGG16 model, achieving 96% accuracy in classifying brain tumor images. The frontend was built with Angular, and the backend was implemented using Django. (FYP)
- **Text Summarizer:** Fine-tuned a pre-trained BART model on a custom dataset, achieving 50% accuracy. The entire project was developed using Django for both the frontend and backend, utilizing HTML templates for the UI and CSS for styling.

CERTIFICATES

Python Intermediate - sololearn (03/2023 - 04/2023)

Introduction to python - sololearn (03/2023 - 03/2023)

Fundamentals of Digital Marketing (05/2023 - 05/2023)

ACHIEVEMENTS

Research Paper on Brain Tumor Classification Detection (12/2024 - Present)
Approved for presentation at the 6th International Conference on Advancements of Computational Sciences .
